

Takunda Madondo

UI Developer

Cell: +263 786154624

Email: tikagura12@gmail.com

Address: 9 Grasmere Ave, Braeside, Hre

CAREER OBJECTIVE

A highly initiative-taking computer scientist equipped with a solid foundation in Web development, database management, artificial intelligence, and data science. I am confident in my ability to take on new challenges and learn quickly. My main goal is to collaborate with industry professionals and contribute to innovative projects that are effective in the world.

SKILLS

- Python (Django) | SQL | GIT | HTML | CSS | JavaScript | Adobe XD | Azure | React |
- Windows | Linux | MacOS
- Communication | problem solving | Strong analytical skills | teamwork | critical thinking

PROFESSIONAL EXPERIENCE

IT Consultant - Icraft Pvt Ltd

Jan. 2024 – Present

- **Microsoft Solution Deployment:** Assist clients in deploying and configuring Microsoft products and services, such as Microsoft 365, Azure, Dynamics 365, and others. This includes planning, implementation, and ongoing support.
- **Development and Automation:** Collaborated with product managers, UX designers, and developers to create intuitive and visually appealing user interfaces for web and mobile applications
- **Reporting and Visualization:** Developing interactive dashboards, reports, and data visualizations to communicate company and customer insights.
- **Project Management:** Manage the end-to-end delivery of Microsoft solution implementation projects, ensuring timely completion, budget adherence, and client satisfaction.

IT Intern – Zimbabwe Women’s Microfinance Bank

Nov. 2021 – Jul. 2022

- **Programming and Software:** Worked on real-world projects, contributed to the development of a Staff Loan Management System, and contributed to the maintenance and improvement of existing software systems used in the banking environment.
- **Problem-solving and Analytical Skills:** I was provided with opportunities to tackle complex problems and develop analytical skills. I worked on projects related to data analysis where I developed a reports portal using Microsoft Power BI.
- **Database and Server maintenance:** Worked iteratively with the IT team to perform database backups and restorations on Azure.
- **Data Collection and Preprocessing:** I was responsible for gathering relevant data from various sources, cleaning and preprocessing the data to make it usable for analysis.
- **System Administration and Support:** Supported banking operations like printer connections, troubleshooting, adding, and removing users from the domain and operating system updates.

EDUCATION

Bachelor Of Science Honors Degree in Computer Science – University of Zimbabwe

Degree Class: Upper second class (2.1)

Aug. 2019 – Sep. 2023

CERTIFICATIONS

Microsoft Azure Fundamentals AZ-900 (In progress)
